

SBLC

(School Building Level Committee)

Students are referred to the SBLC for two reasons:

1. Academic - If a teacher, parent, guidance counselor, etc. feels that a student is having academic difficulties.

2. Discipline - Students are also referred as a result of multiple suspensions. (This is done by the principals.)

If you have questions or concerns about SBLC or if you would like to refer a student contact: Joanie Prejean (Room 204).

Once a child has completed the SBLC screening process they will either:

- Continue on their present regular education program
- Receive a 504 Accommodation Plan
- Referred for further testing to possibly qualify for special education.

DID YOU KNOW...

Special Education & 504 are not the same thing!

- Students classified as 504 receive modifications in the regular education classroom; they do not get assistance from special education teachers.
- These students are not allowed to leave the regular education classroom to receive services.

For questions regarding 504 contact Gaynell Pearson (Room 415B)

504 modifications will be sent out on white paper, whereas special education modifications will be sent on yellow paper.
